

RESTORE OUR FUTURE

Meg Whitman
Hewlett Packard Corporation
January 21, 2012

Dear Ms. Whitman:

Governor Romney forwarded your message to us. We are so excited for the potential to work with you, and the governor wanted us to express his personal gratitude for your involvement.

At Restore Our Future, we take the aspirations of our partners very seriously. We know that you have not given up on public service, and we want to do whatever we can to help make that possible for you.

Let me put it bluntly, Ms. Whitman: you have a role to play in a Mitt Romney presidency. Governor Romney values your insight and wants to make sure that you are an important part of his administration.

While of course no positions in a Romney administration would ever be for sale, your commitment to his election will give a good sense of what role would be most appropriate once the governor takes office. Below are some suggested levels you might consider contributing to the Restore Our Future PAC, and the possible appointments that strong Romney supporters might see in 2013.

I also think your experience would make you an excellent running mate for Governor Romney. If you are interested in being on his short list for vice president, please contact me directly so we can discuss the appropriate level of giving.

Thank you so much for your strong support of Governor Romney's campaign.

Sincerely,
